

Comfort Lawn

With a super-soft, lush feel, our 38mm Comfort Lawn is a great choice of artificial lawn for garden spaces – particularly ornamental gardens. Boasting a luxurious, straight and curled 38mm pile and a four-tone colour mix, it always looks well-manicured and maintained. Adding a natural-looking burst of green to any garden, balcony, residential, commercial or event space. Aptly named comfort lawn for its fine and super soft grass fibres. And because it's durable and made using materials of the very highest quality, you know you're getting a stand-out artificial grass that always looks and feels luxe.
